Executive Summary

In 1967, the Hawai'i State Legislature created the Crime Victim Compensation Commission (the "Commission") to mitigate the financial impact suffered by victims of violent crime. The Commission disburses funds to pay un-reimbursed expenses for crime-related losses experienced by victims who suffer physical or emotional injury, or death, as the result of a violent crime. During Fiscal Year ("FY") 2012, the Commission processed over 1,000 compensation payments, including 815 new applications for compensation.

No State general funds have been appropriated for the Commission since FY 2003, and the Commission is now funded solely from non-tax revenue and matching federal funds. Maintaining a consistent and adequate source of non-tax revenue to fund both compensation for crime victims and operating expenses remains an important fiscal issue facing the Commission.

The Commission continues to pursue its mission to provide each claimant with compassionate and timely service. The Commission actively collaborates with numerous public and private agencies dedicated to serving crime victims as part of its efforts to improve the overall delivery of victim compensation services. In pursuing its mission, the Commission's projects include efforts to increase non-tax revenue through a more consistent assessment and collection of the mandatory Crime Victim Compensation Fee (the "Compensation Fee") by the Judiciary, and to increase in the amount of reimbursement the Commission receives through restitution from the Restitution Recovery Project. Commission efforts to reduce expenditures include the Medical Expense Reduction Project.

The **Compensation Fee** is the Commission's primary source of non-tax revenue and the assessment and collection of the Fee is vital to the Commission remaining fiscally self-sufficient. While the Compensation Fee was implemented in 1998, it was not until FY 2008 that revenue from the Compensation Fee exceeded the Commission's expenditures¹. The Commission will continue its court monitoring efforts, as well as its efforts to work collaboratively with the Judiciary to ensure that the Compensation Fee is assessed by judges in all eligible cases.

The **Restitution Recovery Project** (the "Restitution Project") began in 2003 to collect restitution payments from inmates and parolees, and to disburse those funds to their crime victims, or to the Commission in cases where the Commission previously provided a compensation award to the crime victim. Restitution is paid to directly reimburse the Commission in cases where the Commission previously provided a compensation award to the crime victim for medical and mental health expenses, or funeral costs, generating the necessary funding for more crime victims to receive assistance.²

¹Commission revenue includes: Compensation Fees; court-ordered offender restitution as reimbursement for compensation awarded; a 10% statutory assessment on certain inmate wages; interest income; and federal matching VOCA funds.

² Section 706-646(2), Hawaii Revised Statutes, provides, in part, that "the court shall order restitution to be paid to the crime victim compensation commission in the event that the victim has been given an award for compensation under chapter 351."

As a result of the Restitution Project, more victims have received increased amounts of restitution payments from offenders, and the Commission has received more reimbursements through restitution for compensation previously paid on behalf of crime victims. These increased restitution payments support and enhance the victim's ability to recover, serve to hold the offender accountable to the victim of their crime, and assist the offender in developing a sense of self-respect by righting the wrongs the offender has committed.

The **Medical Expense Reduction Project** seeks to reduce and contain escalating medical expenses by: 1) requesting that medical treatment providers accept payment of seventy percent (70%) of the fees charged, or a thirty percent (30%) reduction of the fee charged, as payment in full for the medical services provided in cases involving uninsured crime victims; and 2) negotiating with the medical treatment providers to each accept a proportionate share of the Commission's maximum award as payment in full for the medical services rendered in cases where a victim's total medical expenses incurred exceed the statutory maximum award of \$20,000.00. In FY12, the Commission realized savings of \$225,000.00 from medical bills of more than \$530,000.00 for an average savings of forty-two point twenty five percent (42.25%).

In 2011, the Governor appointed the Commission to serve as a member of the **Justice Reinvestment Initiative (JRI)** Working Group. The JRI Working Group was comprised of leading state and local officials who worked with the Council of State Governments Justice Center in partnership with the Pew Center on the States and the United States Department of Justice's Bureau of Justice Assistance, to develop a policy framework to address identified areas of concern within Hawai'i's criminal justice system. Part of the Commission's role as a member of the JRI Working Group was to engage crime victims, survivors, and victim services providers and advocates in identifying key issues and concerns specific to the JRI initiative. The Working Group's policy framework became the basis for the JRI legislation.

The Hawaii State Legislature passed the Justice Reinvestment Act (Act 139) during the 2012 legislative session. JRI is landmark legislation that is not only designed to increase public safety while reducing spending on corrections, but also created the first comprehensive victim component that has since become a national model. The Victim component to JRI established 22 positions including positions in the various County Prosecutors Offices' to ensure that victims are aware of their right to restitution and to assist victim's with safety planning; established a permanent, self-sustaining statewide automated victim notification system (SAVIN); increased the amount of restitution payable by inmates from 10% of inmate wages to 25% of all funds deposited into an inmate's account; and provided funding to create the infrastructure to develop a data-driven restitution collection computer system.

Mission Statement

“The mission of the Crime Victim Compensation Commission is to equitably and efficiently provide crime victims with the services due to them under Hawai‘i law. In doing so, the Commission treats every victim and survivor with dignity and respect, acknowledging the tremendous impact that violent crime has upon crime victims and our society.”

Overview and History

The Hawai‘i State Legislature created the Commission in 1967 to compensate victims of violent crimes for their out-of-pocket expenses, losses, and pain and suffering resulting from the crime. The Commission was only the third organization of its kind in the country when it was established.

To be eligible for an award, a victim of a violent crime must report the crime to law enforcement without undue delay, apply to the Commission for compensation within eighteen (18) months after the date of the incident, and provide the Commission with documentation of their expenses and losses (i.e., medical bills, insurance statements, pay stubs, etc.) resulting from the crime.

The Commission has processed over 23,000 victim applications since it was established, and presently awards between six hundred thousand dollars (\$600,000.00) to over one million dollars (\$1,000,000.00) per year in compensation to crime victims. These awards have assisted victims with medical costs, counseling costs, lost wages, and funeral expenses not covered by other sources. Many victims would not be able to receive rehabilitation services, counseling services, or bury a loved one without compensation awarded by the Commission.

Through 2001, the Commission relied primarily on State general funds to finance compensation awards and operating costs. In 2003, the Commission became fiscally self-sufficient, relying solely on the following:

- Compensation Fees assessed by judges against criminal offenders (primary source of revenue)
- Court-ordered offender restitution as reimbursement for compensation awarded
- Ten percent (10%) of Hawai‘i inmate wages (for offenders convicted of violent crimes)
- Interest income from funds on deposit
- Federal VOCA funds – the Commission receives a sixty percent (60%) federal match for every State dollar expended to compensate victims of violent crime

Annual Activity

Operations

During FY 2012, the Commission received 815 new applications for compensation and processed over 1,000 compensation awards. The Commission gives each application full consideration and works diligently with every applicant to ensure accurate and efficient claims processing.

FY 2003 was the first year that the Commission operated without expending any Hawai'i taxpayer dollars. This means that all funds expended by the Commission come from the non-tax revenue sources listed above on Page 3 of this Report. It is, therefore, essential that the Compensation Fee be assessed and collected by the Judiciary in all eligible cases. The Commission necessarily must rely on cooperation and support from the Judiciary to assess and collect the Compensation Fee from convicted offenders in all eligible cases.

operated without expending any Hawai'i

“I wanted to thank you so much for all of your help. How hard you worked to help make it possible to get my son...taken care of. There was so little time but you helped so much in making everything work out so that we could all be part of spreading his ashes. Thank you so much.”

Parents of a murder victim

It is vitally important to note here that Hawai'i now receives a sixty percent (60%) federal match from the Victims of Crime Act (VOCA). This means that for every dollar of Compensation Fees not assessed by judges against, and collected by the Judiciary from, all eligible convicted offenders' results in a compounded total loss of one dollar and sixty cents due to the concomitant loss of the sixty percent federal match.

Compensation in Action - Compensation for Crime-Related Expenses

Case #1 – Motor Vehicle Accident Victim

The 50-year-old male Victim was injured as the result of a Negligent Injury I incident where the driver hit the Victim's vehicle head-on. The Victim suffered a fractured right upper tibia, a fractured pelvis, pain to his entire back, chest, and abdomen area, a broken middle toe, and various abrasions and contusions. The federal social security department determined that the Victim became disabled on the date of the incident and was unable to continue working as a commercial manager. After exhausting all no-fault motor vehicle insurance benefits, the Victim was still facing substantial medical expenses and lost earnings. The Commission awarded the Victim the \$10,000.00 maximum award to pay for the remaining medical expenses as well as to compensate the Victim for lost earnings incurred as a result of the crime.

Case #2 – Murder Victim

The 41-year-old male Victim was beaten to death by two males. Victim's widow was faced with substantial medical and funeral expenses. The Commission negotiated with medical providers to accept \$6,000.00 as payment in full to satisfy more than \$31,000.00 of medical expenses owed. The Commission awarded reimbursement in the amount of \$4,000.00 to the Victim's surviving family members to help cover the cost of the funeral expenses.

Case #3 – Assault Victim Restitution Recovery

The 52-year-old male Victim was assaulted by another male with a metal baton. Victim suffered lacerations to his head and incurred \$3,980.23 in medical expenses. The Commission negotiated with medical providers to accept \$2,873.47 as payment in full. With the assistance of prosecutors and victim witness advocates, the Commission requested, and the court ordered, that the defendant be held accountable for his actions and pay restitution to reimburse the Commission. To date, the Commission has collected \$2,372.25 from the Defendant.

Case #4 – Sexual Assault of a Minor Victim

The male Victim reported to police that, beginning in the fifth grade, he was sexually assaulted repeatedly by his uncle. Victim suffered emotional trauma. The Commission awarded, and will continue to award, compensation for mental health services provided by the Sex Abuse Treatment Center.

Commission Projects

Medical Expense Reduction Project

The Commission initiated the Expense Reduction Project in FY 2006 to reduce overall medical expenses of uninsured victims of violent crime. Escalating medical costs have further taxed the Commission's already limited resources. This is especially evident in cases where the victim's medical expenses are not covered by medical insurance. In an attempt to mitigate rising medical costs, the Expense Reduction Project has proven to be an unqualified success and absolutely necessary to allow the Commission to continue providing much-needed financial assistance to the victims of violent crimes in Hawai'i.

Compensation for crime-related medical expenses is limited under Section 351-62(b), Hawai'i Revised Statutes, to a maximum of \$20,000.00 in cases involving compensable medical expenses³ for catastrophic injuries. This limit is easily exceeded when a violent crime victim is hospitalized for more than several days. Many crime victims who are uninsured fall into the gap group who make too little money to afford medical insurance, and too much money to qualify for Quest medical insurance.

The Commission has taken a two-pronged approach to this issue:

1. Medical Expenses Do Not Exceed the \$20,000.00 Statutory Limit
The Commission requests that medical providers accept 70% payment from the Commission as payment in full for their services for uninsured crime victims. In this way, the Applicant is not responsible for the remaining 30% of the expenses, and the Commission retains more funds to benefit other crime victims.
2. Medical Expenses Exceed the \$20,000.00 Statutory Limit
The Commission leverages the \$20,000.00 maximum award against the full amount of the medical expenses owed by the Applicant by requesting that the medical providers accept the Commission's payment as payment in full. This has enabled the Commission to leverage the \$20,000.00 maximum award available for compensable medical expenses to benefit the Applicant by not having any remaining balance due.

³ **§351-62 Limitations upon award of compensation.** ... (b) No compensation shall be awarded under this chapter in an amount in excess of \$10,000; provided that, if a case involves compensable medical expenses in excess of \$10,000, no compensation shall be awarded in excess of \$20,000 or the actual amount of compensable medical expenses, whichever is lower....

While not all medical providers in the cases selected for the Expense Reduction Project agreed to take a reduced payment as payment in full, in the Expense Reduction Project cases where the Commission was successful in FY 2012, crime victims realized savings of more than \$225,000.00 from medical bills of more than \$530,000.00 in the aggregate, a savings of forty-two point twenty five percent (42.25%).

Over the course of the Project, the Commission has saved victims and the Commission over \$1,000,000.00.

Restitution Recovery Project

“...in the criminal justice system, the victim of crime is almost always neglected. By requiring the convicted person to make restitution and reparation to the victim, justice is served. In so doing, the criminal repays not only “society” but the persons injured in the criminal’s act. There is a dual benefit to this concept: the victim is repaid for his loss and the criminal may develop a degree of self-respect and pride in knowing that he or she righted the wrong committed.”

Sen. Stand. Comm. Rep. No 789, in 1975 Senate Journal @1132, commentary on the Senate’s intent in passing HRS section 706-605(1)(e) which authorizes Courts to order restitution.

Section 706-605(1)(e), Hawai‘i Revised Statutes was enacted in 1975 to provide the Courts with specific statutory authority to order defendants to make restitution payments to reimburse the economic losses suffered by the victims of their crime. Since the passage of this provision, a significant number of victims have not received the court-ordered restitution that they are entitled to. Victims have found it particularly difficult to recover court-ordered restitution from sentenced felons⁴ and parolees.

The Judiciary previously processed restitution payments for all offenders, including inmates and parolees. For a decade, the Judiciary made efforts to divest itself of the responsibility for processing restitution payments made by inmates and parolees. During this time period, the Judiciary and the Department of Public Safety (“PSD”) had been at an administrative stalemate over who was responsible for processing restitution payments made by inmates and parolees.

The system to process court-ordered restitution payments was not working. In order to open a restitution account for an inmate or parolee, the Judiciary required the name and address of the victim before they would accept any restitution payments. This procedure created a significant barrier to the payment of restitution by inmates and parolees. In many cases it was difficult or impossible for PSD and the Hawai‘i Paroling Authority (the “Paroling Authority”) to secure the name and address of the victim. Victim service providers were understandably uncomfortable about giving the names and addresses of domestic abuse, sexual assault, and other crime victims to PSD and the Paroling Authority. There were concerns that victim safety would be jeopardized if an inmate or parolee inadvertently saw the name and address of their victim in their case file.

Despite numerous meetings between the Judiciary, PSD, the Paroling Authority, and victim service providers, and several false starts, efforts to resolve this issue ultimately failed until the Commission stepped forward. With the support of the PSD Director, the Paroling Authority, and the Honolulu Victim Witness Kokua Program, the Commission initiated a pilot project to accept responsibility for the collection and disbursement of restitution paid by inmates and parolees.

⁴ Excludes inmates sentenced to incarceration as a condition of probation.

On January 1, 2003, the Commission initiated the pilot Restitution Project to collect and disburse restitution paid by inmates and parolees. The Commission has opened over 4,000 restitution and

compensation fee cases and collected over \$1,500,000.00 to disburse to crime victims from January 1, 2003 through June 30, 2012. Information identifying the whereabouts of crime victims is kept confidential so that the safety needs of victims are being met. The barriers that made it difficult for PSD and the Paroling Authority to

“Because of the collaborative efforts between the Crime Victim Compensation Commission and the Hawai‘i Paroling Authority, there are more timely payments of restitution to crime victims than there have been in the past.”

Tommy Johnson, Administrator, Hawai‘i Paroling Authority

open restitution accounts at the Judiciary have also been eliminated. PSD and the Paroling Authority need only send restitution payments to the Commission and the Commission disburses the restitution payment to the victim.

A functional Restitution Project benefits all involved. It is now easy for Parole Officers to increase the accountability of offenders by having them repay the crime victim they injured. This Project also assists the County Victim Witness Programs in their efforts to restore the crime victims they serve. In cases where the Commission previously provided compensation awards to crime victims for medical, mental health, or funeral costs, the Commission receives direct reimbursement of those funds, allowing more crime victims to receive assistance.⁵

“Restitution is the cornerstone of restorative justice. Saying we are committed to restorative justice means nothing unless we make a sincere and concerted effort to make sure victims get restitution - without that - restorative justice means nothing. If an offender is not serious about paying restitution, they are not serious about rehabilitating themselves.”

Dennis Dunn, Director, Victim Witness Kokua Program, Department of the Prosecuting Attorney, City and County of Honolulu

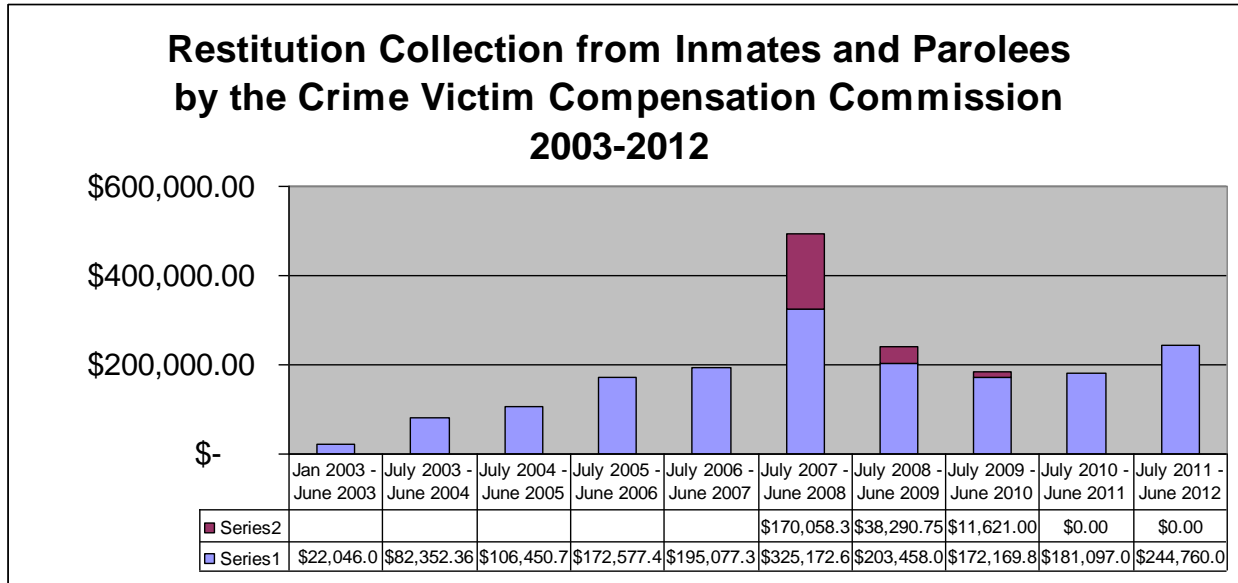

Restitution Collection

Restitution collection from inmates and parolees⁶ has increased significantly over the life of the Project. In the first calendar year (2003) of the Restitution Project, the Commission collected more than \$46,000.00 and in the past calendar year (2011), the Commission collected almost \$176,000.00. The Commission believes that the significant increase in restitution collections over the life of the Restitution Project reflect the gradual institutionalization of restitution

⁵ Section 706-646(2), Hawaii Revised Statutes, provides, in part, that “the court shall order restitution to be paid to the crime victim compensation commission in the event that the victim has been given an award for compensation under chapter 351.”

⁶ Restitution payments are from inmates and parolees and do not include payments from inmates incarcerated as a condition of probation.

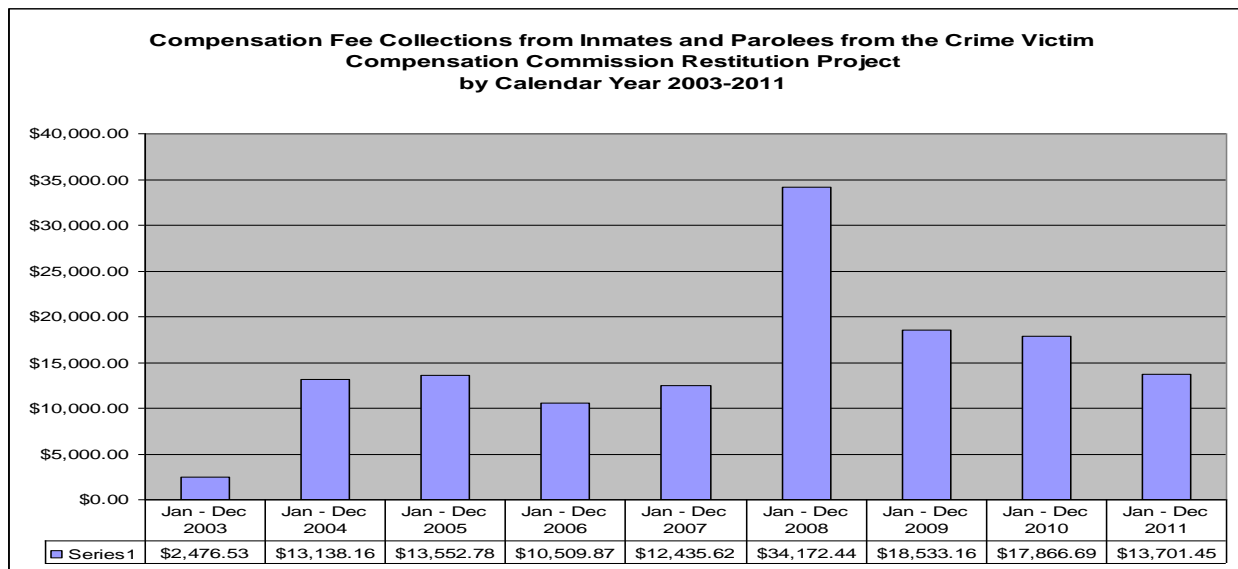

assessment by judges and collection of restitution by the correctional facilities and the Paroling Authority.

* Series 1 reflects the total restitution collected during the fiscal year; Series 2 reflects one-time payment anomalies during the relevant fiscal year.

Compensation Fee Collection

The Restitution Project has unexpectedly also resulted in an increase in the collection of the Compensation Fee from parolees. In the first year of the Project, the Commission collected more than \$2,000.00, and in the past calendar year, the Commission collected over \$13,000.00 in Compensation Fees. While the Paroling Authority has authority to collect Compensation Fees from a parolee, the correctional facilities do not presently have statutory authority to garnish inmate wages to pay court ordered Compensation Fees.

Justice Reinvestment Initiative

In 2011, the Governor appointed the Commission to serve as a member of the **Justice Reinvestment Initiative (JRI)** Working Group. The JRI Working Group was comprised of leading state and local officials who worked with the Council of State Governments Justice Center in partnership with the Pew Center on the States and the United States Department of Justice's Bureau of Justice Assistance, to develop a policy framework to address identified areas of concern within Hawai'i's criminal justice system and to develop data-driven, consensus-based policy options designed to reduce corrections spending and increase public safety. Part of the Commission's role as a member of the JRI Working Group was to engage crime victims, survivors, and victim services providers and advocates in identifying key issues and concerns specific to the JRI initiative. The Working Group's policy framework became the basis for the JRI legislation.

The Hawaii State Legislature passed the Justice Reinvestment Act (Act 139) during the 2012 legislative session. JRI is landmark legislation that is not only designed to increase public safety while reducing spending on corrections, but also created the first comprehensive victim component that has since become a national model. The Victim component to JRI established 22 new victim services positions at the state and county levels including positions for victim assistance counselors, legal clerks, victim witness counselors, restitution specialists, and a restitution recovery coordinator. These various positions will work to ensure that victims are aware of their right to receive restitution and to assist victims with safety planning. Other positions will ensure that court-ordered restitution is collected and disbursed to the victim(s). The JRI Victim component also established a permanent, self-sustaining statewide automated victim notification system (SAVIN); increased the amount of restitution payable by inmates from 10% of inmate wages to 25% of all funds deposited into an inmate's account; and provided funding to create the infrastructure to develop a data-driven restitution collection computer system.

The Commission was provided funding for positions and tasked to monitor restitution collections and disbursements through JRI beginning in FY 2013.

Assessment and Collection of the Mandatory Crime Victim Compensation Fee

The Legislature established the mandatory Crime Victim Compensation Fee in 1998 to provide a funding base for the Commission to begin the process of becoming fiscally self-sufficient. The mandatory Compensation Fee must be assessed by judges against every offender who is convicted of, or who enters a deferred plea (DAG/DANC) to, a petty misdemeanor, misdemeanor, or felony, and is able to pay the fee.⁷

Since the implementation of the Compensation Fee, the Commission encountered significant barriers to collecting the Compensation Fee. For fiscal years 1999, 2001, and 2002 combined, the Judiciary fell nearly one million dollars short of its own estimates for Compensation Fee collections. After 2002, the Judiciary simply ceased providing estimates for Compensation Fee collections. Courtroom surveys revealed that judges were not ordering the Compensation Fee in all eligible cases. For example, judges were (1) waiving the Compensation Fees, but assessing fines with lower priority; (2) not assessing the fee for each eligible offense committed by the same defendant; or (3) unaware of the Compensation Fee altogether.

When attempts to collaborate with the Judiciary failed, the Commission requested, and the Legislature passed in 2005, an increase of five dollars (\$5.00) in the Compensation Fee for all crime categories. The Judiciary's collection of the Compensation Fee again fell short of anticipated revenue increases. Concerned that insufficient funds were being collected, the Legislature passed a resolution in 2007 requiring the Judiciary to report its progress in ordering and collecting the mandatory Compensation Fee. According to the Judiciary's response, the Compensation Fee was ordered in seventy-nine percent (79%), and waived in twenty-one percent (21%), of eligible cases. The Judiciary, however, could not provide the number of cases in which the Compensation Fee was actually collected, except to say that during the first quarter of fiscal year 2008, \$183,051.00 was collected.

As a result of the Legislature holding the Judiciary accountable, revenue from the Compensation Fee increased, and for the first time ever, revenue from the Fee exceeded the Commission's expenditures in FY 2008.

The Commission is acutely aware that its ability to remain self-sufficient depends on judges ordering the Compensation Fee, and the Judiciary successfully collecting the Compensation Fee from offenders in all eligible cases. For this reason, the Commission remains committed to its efforts to ensure that the mandatory Compensation Fee is assessed by judges and collected by the Judiciary in all eligible cases where the offender has the ability to pay. The Commission will continue to closely monitor whether or not judges order the Compensation Fee, and whether or

⁷ Section 351-62.6, Hawai'i Revised Statutes, provides that the court shall assess a Compensation Fee against every convicted offender, or offender who enters a deferred plea, and who is or will be able to pay the Fee. Fees are assessed as follows:

1. a \$30 fee for a petty misdemeanor;
2. a \$55 fee for a misdemeanor; and
3. a \$105 to \$505 fee for a felony.

not the Judiciary collects it, in all eligible cases. The collection of the Compensation Fee by the Judiciary directly impacts the Commission’s ability to continue to assist the victims who apply for compensation and without these funds the Commission will be unable to provide compensation going forward.

Note: Blank fields in the table indicate that the data for that year was not available.

Conclusion

For each of the past forty-four years, the Commission has provided enhanced levels of service to the victims of violent crime in Hawai‘i. The Commission has streamlined case processing by increasing management efficiency, cultivating strategic partnerships with other public and private agencies, and making significant progress towards fiscal self-sufficiency. Even with all of these improvements, the Commission will maintain its pursuit of strategies to further improve services to crime victims.

The Commission will continue to diligently pursue its mission to mitigate the costly and emotionally devastating impact of violent crime on citizens and visitors through continued collaborative efforts, further improvements in management efficiency, and strong staff commitment.
