## INFORMATION ABOUT COMPENSATION

The **Crime Victim Compensation Commission** helps victims of violent crimes by providing compensation for their crime-related injuries and losses. Victims who suffer emotional or physical injury because of a violent crime may be eligible for compensation to pay for expenses that are not covered by another source such as medical insurance. In a mass violence incident, the Commission can also provide compensation for expenses on mental health services to the families of deceased victims, witnesses, and individuals working or being educated at the scene. Compensation benefits are limited by law. Benefits are not available to members of public or private agencies responding to a mass violence incident.
