

DEPARTMENT OF PUBLIC SAFETY
REPORT TO THE 2015 LEGISLATURE

ACT 193
COGNITIVE RESTRUCTURING

Department of Public Safety
Corrections Program Services Division
November 2014

INTRODUCTION

In 2010, the Twenty-Fifth Legislature passed Act 193 with the purpose of authorizing the Department of Public Safety (PSD) to offer reentry/reintegration programs within Hawaii's correctional facilities that included cognitive-behavioral therapy with cultural and other interventions. The legislative intent of these programs was to promote the successful transition of offenders from incarceration to the community by addressing domestic violence, addictions, self-mastery through identity and community connections.

PSD was unable to implement new contracts for reentry/reintegration programs that included cognitive-behavioral therapy with cultural and other interventions due to the lack of additional funding. PSD was able, however, to continue with the provision of intervention programs to address reentry/reintegration during FY 2014 with previously reduced allocations for cognitive-behavioral programs that focused on self development, substance abuse treatment and/or sex offender treatment.

EDUCATION PROGRAM SERVICES

General Course Descriptions/Criteria

Self Development Courses focus on personal change and personal growth. Courses in this group include Cognitive Skills, Parenting for active parents, Hawaiian Studies, Yoga, Basic and Technical Education, Career and Technical Education,

Criteria: Cognitive skills requires a reading level at grade point 6.0 as determined on the Tests of Adult Basic Education. Parenting is open to all students who are custodial parents. All other self-development courses are open to any interested student or students referred to the course by their case manager.

SUBSTANCE ABUSE TREATMENT SERVICES

PSD began assigning inmates to substance abuse treatment levels on July 1, 2009, by utilizing LSI-R/ASUS summary score results. This was accomplished after implementing an Intensive Outpatient Program (IOP) at Halawa and Waiawa Correctional Facility for moderate risk offenders. With the implementation of IOP, PSD was able to provide separate and specific substance abuse treatment for low, moderate, and high risk sentenced male and female felons.

General Treatment Description

Outpatient Substance Abuse Treatment (Level II):

Halawa and Waiawa Correctional Facility, Women's, Kauai and Maui Community Correctional Center provide Level II substance abuse treatment services through PSD's Purchase of Service Contract with Salvation Army.

Level II services utilize a cognitive-behavioral treatment component lasting 44 hours, meeting once per week. An evidence-based cognitive-behavioral therapy curriculum is utilized. Level II services are for inmates who are at lower risk for criminal conduct and meet diagnostic criteria for substance

abuse or dependence. They have had minimal disruption in their psychosocial or vocational functioning due to substance abuse.

For FY 2014, there were 283 admissions and 214 successful completions. One inmate was terminated due to rule violations. The remaining 68 inmates are either still in treatment, have been transferred to another facility, have been paroled or discharged from custody, and/or decided not to continue with treatment.

Intensive Outpatient Substance Abuse Treatment (Level II.5):

Halawa and Waiawa Correctional Facility provide IOP substance abuse treatment services through PSD's Purchase of Service Contract with the Salvation Army. PSD was also successful in developing and implementing a smaller IOP program at the Women's Community Correctional Center (WCCC) by utilizing existing qualified staff to administer the program.

The IOP consists of daily, two to three hour group sessions, 4 days per week with accompanying individual counseling sessions as needed. The Change Companies' Residential Drug Abuse Program, which is an evidenced based, cognitive-behavioral curriculum, is utilized. The duration of the program is approximately 9 months to completion. Each group is a closed ended group with a maximum of 15 men per group. Assessment and treatment planning, individual and family counseling, and aftercare services are provided for each participant.

For FY 2014 there were 121 admissions and 69 successful completions. No inmates were terminated due to rule violations. The remaining 52 inmates are either still in treatment, have been transferred to another facility, have been paroled or discharged from custody, and/or decided not to continue with treatment.

O Malama, Women's IOP

The IOP consists of daily, two to three hour group sessions, 4 days per week with accompanying individual counseling sessions as needed. Staff utilizes the Change Companies' Residential Drug Abuse Program, which is an evidenced based, cognitive-behavioral curriculum. The duration of the program is approximately 9 months to completion. Each group is a closed ended group with a maximum of 15 women per group. Assessment and treatment planning, individual and family counseling, and aftercare services are provided for each participant.

For FY 2014 there were 30 admissions and 14 successful completions. One inmate was terminated due to rule violations. The remaining 15 inmates are either still in treatment, have been transferred to another facility, have been paroled or discharged from custody, and/or decided not to continue with treatment.

Residential Substance Abuse Treatment (Level III):

The therapeutic community (TC) of 50-bed capacity is operated by Hina Mauka through a purchase of service agreement with PSD and is located within the WCCC facility. The program is an intensive long-term, 9 to 12 month therapeutic community.

Cognitive-Behavioral Treatment and Social Learning Theory combine to address criminal thinking and behavior. As the TC residents live and work together, separated from the general population, they hold each other accountable to practice recovery skills and change their criminal thinking and behavior. Specialized services are also provided in the area of sexual and physical abuse, domestic violence, criminality and other types of gender responsive issues.

The average daily participation of inmates in the program is 50. At the beginning of FY 2014, there were approximately 50 inmates in the program. Between July 1, 2013 and June 30, 2014, there were 36 new admissions, 24 successful completions, and 6 terminations due to non-compliance with treatment plan. The remaining inmates continued their participation in the program after the June 30, 2014 date.

Oahu Community Correctional Center, Laumaka Work Furlough Center:

Laumaka Bridge Program is a residential substance abuse reentry, work furlough program for inmates who have completed IOP, or residential substance abuse treatment while incarcerated. The program provides opportunities to practice social learning, cognitive, and recovery skills learned in treatment while transitioning to the community. Family therapy and job development services are provided as the inmate reconnects with family and community resources.

At the beginning of FY 2014, there were approximately 32 inmates in Laumaka Bridge program. Between July 1, 2013 and June 30, 2014, there were 64 new admissions, 40 successful completions, and 17 terminations due to non-compliance with treatment plan. The daily average inmate participation was 32 inmates at any given time.

Women's Community Correctional Center

The Bridge Program is a residential substance abuse reentry, work furlough program for inmates who have completed IOP, or residential substance abuse treatment while incarcerated. The program provides opportunities to practice social learning, cognitive, and recovery skills in treatment while transitioning to the community. Family therapy, psychological, and job development services were provided as the inmate re-connects with family and community resources.

At the beginning of FY 2014, there were approximately 12 inmates in WCCC Bridge program. During the period from July 1, 2013 to June 30, 2014, there were 34 new admissions, 20 successful completions, and 11 terminations due to non-compliance with treatment plan. Due to Bridge counseling and WCCC shortages of case managers, the daily average inmate participation was 12.
