

## PUT THE POWER TO DE-ESCALATE INTO YOUR OFFICERS' HANDS WITH FLEXIBLE SUBSCRIPTION OPTIONS THAT FIT YOUR AGENCY'S NEEDS.

All agreements are 60 months.

### TASER 7 CERTIFICATION PLAN (\$60 PER OFFICER PER MONTH)<sup>1</sup>

This plan has all of the features of the previous two plans, but also includes unlimited instructor training, end-user training, and access to ongoing online and VR training content. It also includes 8 training cartridges per handle, per year for training and unlimited cartridges for field use, an Oculus Go, and, for agencies with 50+, a HALT training suit and a training target.

### TASER 7 CERTIFICATION ADD ON (\$20 PER OFFICER PER MONTH)<sup>1</sup>

For agencies that have previously purchased TASER 7, this allows you to get all of the training deliverables and cartridges that are included in the \$60 Certification plan.

### TASER 7 BASIC PLAN - SUBSCRIPTION (\$40 PER OFFICER PER MONTH)

This plan has the same deliverables as the plan above, except it rolls the agency's handles and holsters into the monthly cost. Agencies still purchase training, cartridges and any other equipment a la carte.

### TASER 7 BASIC PLAN - UPFRONT PLUS SUBSCRIPTION (\$9.75 PER OFFICER PER MONTH)

With this plan, agencies buy their handle and holster upfront (\$1720), and the \$9.75 goes toward their dock, rechargeable battery, Axon Evidence (evidence.com) license and hardware warranties. Training, cartridges and any other equipment are purchased a la carte.

## At the Station

Reduce paperwork and get to the truth faster with one secure, centralized Digital Evidence Management System (DEMS) featuring powerful capabilities like transcription, redaction and forensics.

The video and other digital data collected in the field has to go somewhere. You can manage it by purchasing hundreds of hard drives and additional IT support, or you could simply collect it in one system: Axon's Evidence.com. Our DEMS solution allows you to upload data, tag and retrieve evidence, and share case files with a few clicks. And new features like multi-cam playback and advanced skin-blurring are added regularly.
