### **DEPARTMENT OF PUBLIC SAFETY COVID-19 UPDATE**

HONOLULU – The Hawaii Community Correctional Center (HCCC) reports 53 inmate test results were received as part of the mass testing effort underway at the facility. Of that number, six were positive and 47 were negative. That brings the total positive inmate cases at the facility to 77. There were eight new positive staff test results received bringing the total staff positives to nine. HCCC has enacted their pandemic protocol which includes implementing a facility-wide quarantine of all inmate housing and suspending inmate movement going out of the facility. The facility is in constant contact with the courts to notify them of the status. Ongoing testing is being implemented by HCCC health care staff, with the assistance of DOH and the Hawaii National Guard.

COVID-19 testing is continuously being conducted statewide at all facilities. The inmate test results received at other facilities are as follows:

Halawa Correctional Facility – 103 negative inmate test results  
Oahu Community Correctional Center – 40 negative inmate test results  
Kulani Correctional Facility – 19 negative inmate test results  
Maui Community Correctional Center – 10 negative inmate test results  
Waiawa Correctional Facility – 1 negative inmate test result

One of the remaining two positive corrections recruits assigned to the Training and Staff Development (TSD) section has recovered and was cleared to complete the last four days of training this week. There is one recruit pending medical clearance to return to class. No recruits are in the hospital. All other corrections recruits have completed class.

The Department of Public Safety (PSD) continues to encourage all staff and inmates to voluntarily get tested and receive the COVID vaccination. For more information on PSD's planning and response to COVID-19, inmate testing data, and information detailing the efforts
