NCCHC Continuing Education Webinar

HIVWebinar3_1654977.jpg

Presented by

Alysse G. Wurcel, MD
Assistant Professor in the Division of
Geographic Medicine and Infectious Diseases
Tufts Medical Center in Boston

Thursday, October 1
11 am PST | 12 pm MST | 1 pm CST
| 2 pm EST

Registration: Free

Sue Lane, RN, CCHP-A
Infection Prevention and Control Coordinator
Centurion

1.0 CE credit
(ACCME, ANCC, APA, ADA, CCHP)

REGISTER NOW

About the Webinar

COVID-19 has affected corrections in rates greatly exceeding those in the community. A study by NCCHC and researchers from Harvard Kennedy School indicated a rate of 7,737 per 100,000 inmates compared to a rate of 542 per 100,000 individuals throughout the United States. In addition, individuals with serious underlying medical conditions are at greater risk of severe illness from COVID-19. National experts on correctional health care will share their policies, practices, and perspectives and will answer questions on managing COVID-19 with this vulnerable population. While every correctional facility is unique, this discussion will offer research, information, and ideas practitioners can use to ensure public health and safety during this unprecedented challenge. Program participants will receive access to the PowerPoint presentation and the webinar recording.

Educational Objectives

- Review research about COVID transmission and how that impacts jails and prisons
- Describe different types of masks and the data to support their use
- Discuss the role of asymptomatic testing

This activity is supported by a sponsorship from Merck.

Continuing education credit (1.0 hours) available for:

Nurses: The National Commission on Correctional Health Care is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

NCCHC designates this educational activity for a maximum of 1.0 contact hours.

Physicians: The National Commission on Correctional Health Care is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. NCCHC designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their

participation in the activity.

Psychologists: The National Commission on Correctional Health Care is approved by the American Psychological Association to offer continuing education for psychologists. NCCHC maintains responsibility for this program and its content. This educational activity has been approved for up to 1.0 hours of credit.

Dentists: The National Commission on Correctional Health Care is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. NCCHC designates a maximum of 1.0 hour credit is approved for this educational activity.

CCHPs: Certified Correctional Health Professionals may earn up to 1.0 contact hours of Category I continuing education for recertification.

About the Presenters:

Alysse G. Wurcel, MD, is an assistant professor in the Division of Geographic Medicine and Infectious Diseases at Tufts Medical Center in Boston. Her internal medicine residency was at Massachusetts General Hospital and infection disease fellowship at Columbia-Presbyterian Hospital and Tufts Medical Center. In addition to her work as an inpatient ID doctor, Dr. Wurcel has an outpatient clinic where she specializes in HIV, HCV, and substance use disorder care. In April she began working as the COVID-19 ID consultant for the Massachusetts Sheriffs' Association, overseeing COVID-19 prevention and mitigation in the state's jails. She has received funding to investigate health disparities in access to COVID-19 testing for health care workers.

Sue Lane, RN, CCHP-A is the infection prevention and control coordinator for Centurion. She is a lead surveyor for NCCHC and has chaired the board of directors for the Academy of Correctional Health Professionals. She has over 30 years experience in infection prevention and control and 20 years in correctional health care. She received her nursing degree from Kennesaw College in Georgia. She speaks at colleges to promote correctional health care careers.
