SUBJECT: Products and Services Available from Hawaii Correctional Industries

Procurement Circular 2006-04 is amended to update that goods and services are provided by the Department of Corrections and Rehabilitation's Hawaii Correctional Industries (HCI).

HCI offers a variety of products and services for government agencies. The State Procurement Office (SPO) supports these efforts and encourages agencies to purchase HCI's products and services. Studies indicate that nine out of ten individuals who are incarcerated eventually return to society. These purchases enable HCI to expand real-world work opportunities that develop trade and personal skills, strengthening the individual's ability to be productive upon release.

State agencies may purchase the following items directly from HCI by visiting www.hawaiicorrectionalindustries.com.
