

	DEPARTMENT OF CORRECTIONS AND REHABILITATION CORRECTIONS ADMINISTRATION POLICY AND PROCEDURES	EFFECTIVE DATE: January 1, 2024	POLICY NO.: COR.07.10
		SUPERSEDES (Policy No. & Date): COR.07.10 / 08/12/1996	
SUBJECT: ENVIRONMENTAL HEALTH AND SAFETY		Page 1 of 4	

1.0 PURPOSE

To establish procedures that will ensure a safe and sanitary environment in all correctional facilities.

2.0 SCOPE

This policy shall apply to all correctional facilities within the Department of Corrections and Rehabilitation (DCR).

- i. Standard for Health Services in Correctional Institutions, (2nd Ed., 1986),
Beauty and Barber Shops Within Institutions.

.2 Definitions

- a. Health authority: The physician, health administrator, or agency responsible for the provision of health care services at an institution or system of institutions; the responsible physician or director of nursing may be the health authority. In Hawaii's correctional facilities the Nurse Managers are the health authority.
- b. Sanitize: Shall mean effective bactericidal treatment of surfaces.
- c. Infectious: The pathological state caused in organisms by infections.

4.0 POLICY

To ensure a comprehensive environmental health program environmental inspections shall be conducted by health services staff, correctional staff, and outside agencies (e.g., Department of Health, Fire Department) on a scheduled basis. Procedures shall be established by correctional facility administration and the responsible health authority in accordance with the provisions of this policy.

5.0 PROCEDURES

.1 Inmate Housing

- a. Each inmate shall be furnished with a single bed, clean mattress, pillow and case, sheets, blanket, and either an open case, footlocker, chest of drawers, closet, or other device for safe and orderly storage of clothing and personal property.
- b. Adequate lighting which provides a degree of illumination appropriate for the function of the area and noise containment shall be evident.
- c. Hand washing sinks, showers, and toilets shall be in sufficient numbers, accessible, with adequate water pressure, and kept clean and in good repair.

- .2 Each facility shall assure availability of a sufficient supply of clean linen and clothing.

- a. Each inmate shall be provided with two (2) clean changes of clothing, and one (1) clean change of bedding linen and personal towels per week.
 - b. Laundry of infectious or parasite-infected materials is handled using precautions (e.g., gloves, gown, masks), double bagged, labeled, and processed according to policy COR.10D.11, Infectious Waste Disinfection, Decontamination, and Disposal.
- .3 Housekeeping shall be done in compliance to Policies and Procedures COR.07.07, Housekeeping Plan for Non-housing Areas, COR.07.08, Housekeeping for Food Service Areas, and COR.07.09, Sanitizing Plan for Inmate Sleeping Areas.
- a. There is a comprehensive housekeeping program that identifies what has to be cleaned, and who evaluates cleaning effectiveness and with what frequency.
 - b. Sufficient and appropriate cleaning equipment and supplies, including water-soluble cleaning compounds and pesticides for the control of insects and vermin, shall be available for the housekeeping program. The guidelines covering the control, use, and disposal of flammable, toxic, and caustic materials are outlined in policy COR.07.18, Hazardous Materials Use & Control.
 - c. Refuse, including hazardous refuse and waste, shall be handled, stored, and disposed of in a safe and sanitary manner consistent with policy COR.10D.11, Infectious Waste Disinfections, Decontamination, and Disposal.
- .4 Risk Exposures
- a. Fire retardation equipment shall be kept in working order and regular inspections of this equipment will be logged.
 - b. Combs, clippers, razors, and other similar equipment used for hair cutting shall be routinely sanitized between use on different inmates.
 - c. Areas that share a common passage with sensitive service areas should have self-closing doors that are kept closed when not in use.
