

Since the late 1990s, the Department of Corrections and Rehabilitation (formerly known as the Department of Public Safety) has published a list of agencies and community service providers available to assist offenders transitioning back into the community. With each passing year, these resources, both within government and in the community, experience change. While there have been continuous improvements to the types of services available, this year's publication remains focused on updating the existing lists in each of the individual counties statewide.

The 2024 Community Resource Guide continues to be maintained by the Department's Reentry Coordination Office whose mission is, to establish a process of transition for those incarcerated, to utilize available and known resources, both in-facility and in collaboration with community service providers, and to create a realistic but sustainable model for success within the community. The purpose of this guide is to provide offenders and their families a listing of contact information for programs and services, as up to date at the time of publication, as they work towards a successful reentry.

The latest version of the Community Resource Guide can be located on our website at www.dcr.hawaii.gov.

BACKGROUND

The mission of the Department of Corrections and Rehabilitation (DCR) is to provide a secure correctional environment for comprehensive rehabilitative, holistic, and wraparound re-entry services, including culturally based approaches, to persons sentenced to our custody and care with professionalism, integrity, respect, and fairness. Our goal is to reduce recidivism and enhance the safety and security of our communities. DCR oversees the state's jails and prisons.

Administration: Handles everything from training and staff development, personnel management, management of the operating budget, and capital improvements program budget.

Corrections: Oversees the state's jails and prisons. Represents 85 percent of the department's annual operating costs.

Rehabilitation Services and Programs: Incorporates a variety of programs, resources, and services including education, substance abuse, job training, furlough opportunities, state identification, and birth certificates.

The department oversees four (4) jails and four (4) prisons in Hawai'i that imprison roughly 5,300 of the state's citizens. That includes approximately 1,450 prisoners in mainland facilities.

Jails: Hawai'i Community Correctional Center, Kaua'i Community Correctional Center, Maui Community Correctional Center, and the O'ahu Community Correctional Center.

Prisons: Hālawā Correctional Facility, Kūlani Correctional Facility, Waiawa Correctional Facility, and the Women's Community Correctional Center. All four prisons are located on the island of O'ahu.

The department submits annual reports to the Hawai'i Legislature on its various programs.

The creation of this directory was influenced by an Offender Workforce Development Specialist (OWDS) Training Initiative which promoted collaboration between criminal justice agencies and community organizations to increase positive offender employment outcomes. In addition to the training, specific workgroups were created to address barriers related to offender reentry. Hence, the workgroup that laid the groundwork for this directory is called, "Pacific Resource." This directory is one of many strategies that will assist individuals in making a successful transition from prison/jail to the community. The development of this directory would not have been possible without the partnerships of and collaboration with many government and community agencies. Therefore, we would like to thank all those involved who worked tirelessly on this effort.

This updated 2024 version has added a description of many of the agencies to help promote better usage of this directory. In addition, there has been great effort to list services across all counties.

Please note that this information is being provided for your convenience and for informational purposes only. While we aim to provide you with accurate information, please contact the respective organization(s) for the most up-to-date information on their programs and services. PSD does not endorse or guarantee these organizations, their programs, or their services, and isn't liable for any errors in their delivery.

Maintaining accurate and updated information is a difficult task. If you locate information that is inaccurate or out of date, or would like to add your agency, please contact our Reentry Coordination Office at (808) 587-1389 and leave a message. Aloha, and we hope you find this guide helpful.

FINANCIAL AID

Visit your school counselor for help in applying for financial aid.

To receive federal student aid, you must meet the eligibility requirements listed on the Free Application for Federal Student Aid (FAFSA) website. If you were convicted for the possession or sale of illegal drugs before you enrolled in school and were not receiving federal student aid, you are **NOT** automatically ineligible to receive financial aid. However, if the offense took place while you were enrolled in school and receiving federal financial aid, your eligibility will be suspended.
